

MOSES 4 – TEN COMMANDMENTS Exodus 20

Last time we learnt how the Israelites walked straight through a path God had made through the Red Sea. None of the Egyptians could make them go back now. They were free!

They just had to follow the cloud that God had given them. When it moved they moved, when it stopped they stopped.

Everything was going well until they started to grumble. Their own food was running out and they were fed up and hungry.

The ten commandments were important rules and Moses knew the people had to obey them. They all listened to him and said they would obey.

Some of the commandments were about loving God and not making anything or anyone more important than him.

Some of the commandments were about loving other people. They are things like not murdering or stealing or telling lies.

When Jesus came he told us not to worry about trying to remember all the rules, just remember to love God and love each other. They are the most important things.

something to think about...

How do we show that we love God?

We show we love God by praying to him. He wants us to talk to him and we can do that at any time and in any place.

On Sundays, most people who love God go to church or watch services online. It is a good way to remember how important he is.

Q How do we love others?

When Jesus talks about loving other people, he wants us to do kind things even if we don't feel like it. He wants us to be:

generous

helpful

friendly

Dear Jesus

It is easy to understand that what you want most is for me to love you and love other people.

Sometimes that is hard to do and I pray that you will help me.

Help me to be think of ways I can be generous, helpful and friendly.

Amen
